Here's a comment by the manager of #1 Best Green Fleet in 2015:

As I have communicated to you multiple times, the value of the award programs that you started many years ago cannot be overstated in our industry. You are a leader in helping Government Fleets across North America learn, improve, and most importantly share information that benefits all of our constituents and the greater communities that we serve. I personally want to thank you for everything that you have done for the industry and for continuing to facilitate sharing of information and encouraging all of us to improve.

David Worthington, Fleet Manager; County of Sonoma, CA

Please join us in congratulating all of the winners.
